5) Fremont Road Town Forest and Red Barn (*Fremont Road*)

THE VOTERS OF SANDOWN HAVE BEEN ACQUIRING OPEN SPACE OVER THE LAST 6 YEARS

To have local access to nature | To protect our local wildlife habitat | To protect our sources of drinking water | To reduce our pollutants that impact our downstream neighbors | To increase home and land values | To reduce our ongoing tax burden!

The Sandown Conservation Commission has successfully used the Land Use Change Tax, and federal grants to conserve approximately 6% of Sandown's land with very little impact on our annual tax rate. Balancing new construction with open space reduces our tax rates by eliminating ongoing town and school costs.

Get out and enjoy your local natural resources! Visit www.sandown.us for trail maps.
