Mapping update - Nothing new to report

Wetland update –

Members spent the week emailing examples of pictures, graphs and descriptive cites they liked for the purpose of developing an educational brochure.

Handouts were disseminated to the Commission members.

After everyone had input and E. Kingston and Fremont were identified as good sources of information, Mr. Butler advised that he put together an outline of the discussed information for the next meeting.

Public input:

Mr. William Collins of 17 Fremont Rd addressed the Commission. Mr. Collins felt it important to include Point source pollution in the mailer, not just non-point source pollution. Mr. Butler advised they would take it under advisement and again stressed that not every topic can be covered in this single mailer.

New Business

Ms. Gaudreau spoke of a recent webinar of particular interest and advised members that she would share the link with them.
